# Want a successful career?

## Let us give you a hand.

**With all the support you need to succeed, Discover Hospitality is here to help your career take off — and stay on track.**

### Career Advice

Including current success stories and insights from industry champions

### SkillsPathways Project

To help progress your career and find the right training for you

### Skills Passport

To track your progressive skills and achievements, plus get noticed by future employers

### Job Search

To find your ideal job and next career challenge

**Apply to be part of the Skills Pathways Project and we'll find the right environment and registered training organisation for your on-going development.**

Have you considered a supervisory role? The Skills Pathways Project can support you in undertaking formal training that assists in the effective management of apprentices and identifies what to do and where to go for support, such as the Apprenticeship Mentors at Restaurant & Catering Australia.

The skills developed will improve your workplace environment and quality of staff. Whilst recognising previous training, the course will be undertaken over a four month period.

Importantly, the online tools at Discover Hospitality will provide the support you need throughout your training.

You will be able to track training progression and milestones in your very own Skills Passport. Free, convenient and secure, managing your career has never been easier.
